PlanetU Campus ERP

User guide: Parent

Get the app

Open the "Get the app" page (/install on the site). Your device is marked.
Android: download the app and open the file. iPhone or iPad: tap Share, choose Add to Home Screen, tap Add. Computer: use the install icon in the address bar, or File then Add to Dock in Safari on a Mac.

Getting in

1. The institute sends you an invite by email when your child is enrolled. Open the link and set a password.
2. Sign in with the institute code, choose Parent, your login ID and password.
3. The first time, the app asks for your consent. The first box is needed to see your child's records. The second, email reminders, is your choice. Your answer is saved with the date and time.

My child today (your home page)

- Each class today, with Present, Absent or Late once the teacher submits the register.
- Fees due, attendance, the latest result and new notices.
- The orange button at the top is the one thing to do next, for example "Pay" or "Read the new notice".
- More than one child? Tap their name at the top of the page to switch.

Pay a fee (three screens)

1. Home: tap the orange button, or Fees in the bottom bar.
2. Fees: tap Pay, check the amount, pay by UPI, card or netbanking.
3. The receipt shows straight away. Download it any time from "Payments and receipts".

If online payment is not switched on for your institute, the page says so: pay at the fee counter.

Results and notices

- Results: every published exam and the report card to download.
- Notices: under More. Important notices are shown in red.

Need help?

Menu, "Help and feedback" sends a question to the institute office.

The What-if meter

On your home page, the Attendance card has a slider. Move it to see what happens if your child misses more classes: "If Aarav misses 3 more classes, attendance becomes 82.1%". It uses your child's real counts and the institute's minimum, and it changes nothing.
